PROFILE SUMMARY

Detail-oriented WordPress developer seeking an internship opportunity to gain real-world industry experience. Possess a solid academic foundation in programming and web development, with hands-on exposure through semester projects and practical coursework. Familiar with Python basics, WordPress development, and front-end technologies, and capable of completing assigned tasks efficiently. Highly motivated to learn, adapt, and contribute to a professional development team while enhancing technical and problem-solving skills.

CORE COMPETENCIES

- Experience in website creation, theme customization, plugin management, and content handling.
- Proficient in HTML, CSS, JavaScript, and Bootstrap for building modern and responsive interfaces.
- Foundational knowledge of Python with introductory exposure to data analysis using NumPy, Pandas, and Matplotlib.
- Skilled in developing mobile-friendly layouts with cross-browser compatibility.
- Proficiency in Microsoft Office (Word, Excel, PowerPoint).
- Practical implementation of software engineering concepts through semester projects.
- Effective problem-solving abilities and client communication skills.
- Strong analytical thinking with the ability to communicate requirements and solutions clearly.
- Basic experience in on-page SEO techniques and website performance enhancement.
- Strong project management skills with knowledge of Agile methodologies.
- Excellent time management and multitasking capabilities.
- Relationship Building & Team Collaboration.

PROFESSIONAL EXPERIENCE

Academic & Practical Experience

- Completed multiple semester projects involving software development concepts, front-end design, and basic programming practices.
- Experience in website creation, theme customization, plugin management, and content handling.
- Applied Python programming fundamentals to develop basic scripts and logic-based solutions for academic tasks.
- Gained practical experience through Web Development and WordPress Development courses, completing assigned development tasks independently.
- Designed and implemented responsive web pages using HTML, CSS, JavaScript, and Bootstrap.
- Developed and customized websites using WordPress, including theme customization and content management.
- Demonstrated strong time management skills by meeting academic deadlines and task requirements consistently.
- Worked effectively in team-based assignments, strengthening communication, coordination, and relationship-building skills.
- Actively learning new tools and technologies to enhance professional readiness for internship roles.
